

## Board Game Product Comparison Chart

All Strat-O-Matic board game packages include all of the game parts needed to play. Since the game parts are universal, the main difference in the types of games you can purchase would be the players that are included with the game. Here is a breakdown of some of our board game product types:

**NOTE: Please check the year on all of the “Current Edition” Board Games and Windows Games, as the production time on all of the new seasons for each sport may vary.**
